

*Introducing a dishwasher that cares
for your best silver.*

 **Eurotech**

*Big change for dishwashers.
Small change for you.*

Only Eurotech makes designer quality so affordable. In fact, Eurotech's basic unit is the most economical stainless steel-interior dishwasher on the market.

Eurotech's water- and energy-efficiency keep saving you money after you buy. A normal wash cycle uses less than 4 gallons of water versus 7-10 gallons for most US-made dishwashers. All Eurotech dishwashers are ENERGY STAR rated.*

What's more, Eurotech tests every unit before it leaves the factory — not just random units like many manufacturers — so getting exactly what you paid for isn't a worry. All Eurotech dishwashers are covered by the exclusive Guardian™ Warranty for your peace of mind.

EDW294E with optional stainless steel door

*EDW242C uses 4.1 gallons

The dishwashers with the silver lining.

Eurotech offers four high-style models to suit your specific needs. All are available in a range of colors. Our hidden-control unit even accepts custom door panels or any of our four optional doors and handles. All are built with durable stainless steel interiors and filtration systems that won't rust, chip or discolor and are guaranteed for 99 years.

Performance is where Eurotech really shines. Thanks to the unique EuroStyle™ system, all models clean meticulously and quietly. Unlike most other dishwashers, Eurotech's spray arms alternate rather than operating simultaneously — first the top sprays, then the bottom. This ingenious system allows each arm to focus on one basket at a time for maximum water pressure and effectiveness, and it keeps your dishwasher quieter in the process.*

*Eurotech dishwashers also offer features previously available only on much more expensive dishwashers: a self-cleaning filtration system for hassle-free operation, separate circulation and drain pumps so soil is never recirculated and redeposited on dishes, overflow protection with a one-piece base pan, and an optional 160° F Sani-Clean cycle on select units. There's even an option that lets you wash items only in the top or bottom basket — perfect for small loads.**

The exclusive Guardian™ Warranty covers

- 1 year parts & labor
- 2 years parts
- 5 years parts for solid-state controls, timers, motors or pumps
- 99 years parts on stainless steel tank

(See Warranty Certificate for complete details.)

Convenience that's right on the money.

Want a dishwasher that's user-friendly? With its large capacity (12 five-piece place settings plus serving pieces), your Eurotech dishwasher is easy to load. The top basket of all models has a cup/wine goblet shelf, and is adjustable to accommodate taller items. The lower rack on most models features fold-down tines to easily accommodate even the largest pots or casserole dishes. All units come with a large, removable cutlery basket.

Controls on Eurotech dishwashers are also a snap. The Quick 'n' Easy™ control system uses simple, familiar program names. Talk about convenience — electronic units even come with a special LED readout window indicating the remaining wash time.*

Importantly, all Eurotech units are also ADA height-compliant for easy access. Eurotech fits easily into any standard cabinet opening.

Start saving today.

Sound good? Just visit your nearest Eurotech distributor or click on www.eurotechappliances.com for more information on the appliance line that brings you the best of both worlds.

The New Eurotech Line.

Today's consumers are more demanding than ever. Appliances must not only meet high standards of performance and style, but do so without breaking the bank. From one of Europe's largest appliance manufacturers comes Eurotech—a new line of high performance, conservation-minded dishwashers. Eurotech dishwashers combine Old World style, quality and resource conservation with solid New World know-how, for performance and styling superior to any others in their price range. With Eurotech, you get sleek European design, stainless steel tanks, water and energy savings, and supreme quietness. All without depleting your pocketbook or the environment. It's the best of both worlds—Eurotech.
