

Portonovo

*Classic pyramid style that
complements any range top*

Portonovo

A favorite tourist destination, the Bay of Portonovo is the jewel of the Mount Conero Park in Italy. The beach offers an astonishing view of the Adriaticc Sea and the cliffs of Mount Conero.

Introducing the ventilation hoods that really clear the air.

At Eurotech, we specialize in the technology of clean. Literally. It's all we do. Clean dishes, clean clothes and, now, clean air. Our new ventilation hoods are the perfect examples. They feature the industry's most advanced technology to clear the air in your kitchen – and throughout your home.

Eurotech hoods work smartly, efficiently, quietly and, most of all, cleanly to remove cooking fumes, heat and grease from the air before they can permeate your upholstery, clothes, curtains and carpet. In fact, we're so committed to cleanliness that we've made the hoods themselves easy to clean. Ultra-efficient grease filters and seamless construction make sure of that.

So, you want clean? You want Eurotech.

Eurotech ventilation hoods. Clean by design.
